### 24x24 FLAGSTONE CROSS-SECTION (on-grade installation\*\*)

\*\* 24x24 Flagstone slabs must be spaced apart a minimum of 1/8". These slabs were originally developed for use with roof-top pedestal mount systems. On-grade installations require manually spacing the slabs apart. This can be achieved using a pair of 1/8" wooden shims or by using removable tiles spacers. Failure to provide a relief joint will restrict the seasonal flexibility of the patio.
