REDI-ROCK® MOLD TEXTURE OPTIONS FOR MANUFACTURERS

# LEDGESTONE

Redi-Rock Ledgestone. It just has a certain ring to it, doesn't it? This texture has been extremely popular since it launched in 2010. The random, stacked stone appearance has often been imitated, but none compare to the original!

## Ledgestone Block Benefits

- Trapezoidal shape allows convex and concave radii
- 5.5 inch (140 millimeter) deep texture
- Colors can be formulated based upon local region
- Ten individual face molds offer up to 115 square feet (10.5 square meters) of non-repeating patterns
- Wet-cast concrete gives a greater level of detail and durability
