

The Redi-Rock logo consists of the words "REDI+ROCK" in a white, bold, sans-serif font, centered within a red square. The plus sign is a simple horizontal line.A large photograph showing multiple stacks of light-colored, rectangular concrete blocks with a smooth texture and beveled edges. The blocks are arranged in neat rows, creating a sense of depth and scale.

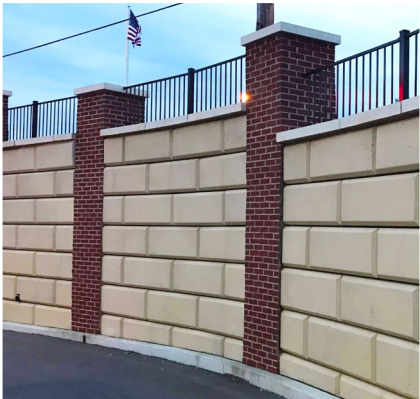

## REDI-ROCK SMOOTH TEXTURE

When you're looking for something that's a little more modern, the Redi-Rock Smooth texture provides the sophistication you're after. Crisp, clean lines create a refined look, and the beveled edges provide the depth and attention to detail for which Redi-Rock is known. Stick with one color for a sleek look, or mix and match colors to create a geometric pattern of your choice.

### Benefits of the Smooth Texture Retaining Block:

A photograph of a retaining wall made of light-colored concrete blocks with a smooth texture. The wall is situated on a grassy slope, and a concrete walkway runs along its base.

Trapezoidal shape allows convex and concave radii

A photograph of a retaining wall made of light-colored concrete blocks with a smooth texture. The wall features vertical pillars of red brick. A black metal railing runs along the top of the wall, and an American flag is visible in the background.

Colors can be formulated based upon local region

A close-up photograph of several Redi-Rock concrete blocks, showing their smooth texture and beveled edges.

Wetcast concrete gives a greater level of durability

Beveled edges create angular depth to the wall joints
